EXPERIENCE

AETNA / TEAM LEAD + SENIOR SOFTWARE ENGINEER - FRONT-END
Feb 2018 - Current, Remote

- Lead team that works on core member features for the Aetna Health web app such as provider search, claim payments, spending, ID cards, and benefits/coverage. Provide engineering support to product, design, a11y, architecture, and content teams.

- Built reusable + accessible UI components for the original Aetna Health component library using React including including popular components such as the customizable sidebar layout that uses CSS Grid (IE10+), the pagination component, & the stepper component.

KALKOMEY / SENIOR FRONT-END DEVELOPER
Oct 2015 - Aug 2017, Dallas + Austin (remote)

- Introduced the use of living styleguides along with the SMACSS methodology and BEM naming convention to all new projects for more rapid development and consistency across products.

- Built the UI for the internal content/learning management system. Led the front-end developement for the customizable storefront that allows state agencies to sell state licensing products.

JOIN'EM / SOFTWARE ENGINEER II - FRONT-END
April 2014 - Aug 2015, Dallas + remote

First front-end engineer hire at start-up part of a small, close-knit engineering team. Took a concept, created a living styleguide, and built a mobile-first/RESTful API driven SPA using AngularJS.

APOLLO INTERACTIVE / FRONT-END DEVELOPER
Aug 2013 - April 2014, Dallas

Built new web pages, responsive email templates, fixed bugs, and added new features for existing client websites.

ONLINE PERFORMANCE MARKETING / WEB DEVELOPER
March 2013 - Aug 2013, Richardson

Built/designed custom, responsive WordPress themes.

UT-DALLAS / DESIGNER+DEVELOPER
Nov 2011 - May 2013, Richardson

Launched and maintained the redesigned recreational sports dept website. Designed posters, flyers, & graphics for other print material.
