

# CINDY HADEN

senior front-end engineer in dallas, tx

## EXPERIENCE

### SENIOR+ SOFTWARE ENGINEER

*Aetna (remote), Feb 2018 - Present*

*I work on both Aetna web application member features & our design system library.*

- Build accessible UI components for the Aetna component library using React. The library is used by both Aetna and CVS teams.
- Build core member features such as provider search, claims, spending, etc.

Some accomplishments:

- first engineer (not on staff team) to migrate a core feature to be an MFE (completed in a 2 week sprint)
- as team lead, I created feature documentation for all of my teams' features to significantly improve onboarding and technical decisions
- initiated content migration for the Claims feature using GraphQL
- present lightning talks during the biweekly web engineering meeting
- worked with arch/server teams to improve schema for Spending API
- streamlined how web teams kept track of progress for web initiatives
- built some of the most used components in our component library such as Accordion, Paginate, Stepper, SidebarLayout, ProgressBar, etc

### SENIOR FRONT-END DEVELOPER

*Kalkomey (remote) , Oct 2015 - Aug 2017*

*I worked on both the custom content management system and licensing system.*

- Led the front-end development for the customizable storefront.
- Built the UI for the internal content/learning management system.
- Created code standards and living styleguides for all new projects for more rapid development and consistency across products.

### SOFTWARE ENGINEER II

*Join'em (remote), Apr 2014 - Aug 2015*

Built the UI for a social e-commerce web app working closely with design and back-end engineers to launch the MVP. Created the living styleguide.

### FRONT-END DEVELOPER

*various design agencies, March 2013 - Apr 2014*

Built custom WordPress themes, responsive email templates, fixed bugs, etc.

### WEB DEVELOPER + GRAPHIC DESIGNER

*UT-Dallas, Nov 2011 - May 2013*

Redesigned and built the new recreational sports dept website.
